Subject: Re: Renewal applications due soon

Hi John,

Thanks for sharing this. Jessica Strand will be our point of contact for the associated CWA section 401 certifications since she has my former position. I will be providing her guidance throughout the process.

Thanks,
Naomi

Subject: Renewal applications due soon

Hi Phillip,

The National Pollutant Discharge Elimination System (NPDES) permit for the Band's three wastewater treatment plants will expire on October 31, 2018. Pursuant to 40 CFR Part 122.21(d), filing an application for reissuance of a permit is required at least 180 days prior to the expiration date of the permit, unless otherwise specified by the permitting authority.

The forms (2A and 2S) for each facility can be downloaded, filled in, printed and signed and should be submitted to me by May 4, 2018. Let me know if you have any questions.

Thanks,

John
